

I can assist you with questions regarding the Bureau of Citizenship and Immigration Services (USCIS) and any applications you have filed with that agency, including naturalization applications, immigrant petitions for relatives, and adjustment of status applications. If you have been working with USCIS and have encountered problems, I might be able to help. Although I cannot order the agency to decide a matter in your favor or circumvent regulations, I can ensure that your case is treated fairly.

For more information about U.S. citizenship, naturalization, Green Cards, or access to immigration forms, please visit the official Bureau of Citizenship and Immigration Services website: [www.uscis.gov](http://www.uscis.gov) .
