

Passports are obtained through the Passport Services Division of the Department of State. Through your local passport acceptance agent, usually at the Post Office, you can apply for a new passport, renew your old one, or do any of a number of things, including replacing a lost, stolen, or damaged passport, or adding new pages to your existing book.

You can obtain information about passports, visas, and other travel information from the [State Department's official website](#)

If you cannot find the information you need or would like assistance, please contact my office by completing the short [Casework Inquiry Form](#) . If the matter is urgent, please call one of my local offices directly.
