

Today, I joined House Speaker John Boehner, Majority Leader Eric Cantor, and other members of the House Republican leadership in a press conference supporting H.R. 674, the legislation I authored to [repeal the 3% withholding provision](#) .

I applaud House leadership for bringing the legislation I have sponsored to repeal the 3% percent withholding provision to the House floor this week. This bill has 269 bipartisan cosponsors, and I am hopeful it will pass the House on a strong, bipartisan vote. As a small businessman, I understand that heavy-handed regulations like this provision cause significant hardship for businesses already operating on slim profit margins. Full repeal of 3% withholding will help create a favorable environment for job creation and is necessary to provide certainty to our small businesses that this harmful provision will be eliminated once and for all.
